Quarterly Performance Summary

December 31, 2020

CAPITAL MARKETS OVERVIEW

U.S. Equity Market

Global equities ended 2020 with a bang, adding to already sizable gains from earlier months, as positive news around COVID-19 vaccines and a fiscal stimulus plan bolstered sentiment. Domestic stocks, as represented by the S&P 500 Index, returned 12.1% for the quarter. In the US, small cap value stocks beat their large cap and growth counterparts; the Russell 2000 Value Index returned 33.4% in the last quarter compared to 16.3% for the Russell 1000 Value Index. The Russell 2000 Growth Index returned 29.6%, outperforming its large cap counterpart by 18.2%.

International Equity Markets

Non-U.S. equities outperformed their domestic counterparts as U.S. dollar weakness strengthened local-currency returns. We saw record-low interest rates in the United States and the unprecedented stimulus have negatively impacted demand for the dollar. As a result, the MSCI EAFE and MSCI Emerging Markets indexes rose 16.0% and 19.7%, respectively, for the quarter. Similar to the US market, small caps outperformed in emerging and developed markets. The MSCI EAFE small stocks gained 17.3% and the MSCI Emerging Markets Small Cap returned 22.2%.

Fixed Income Markets

Credit spreads of investment-grade and high-yield debt tightened in the fourth quarter with some segments of the market reaching pre-pandemic levels; lower-quality investment-grade and high-yield securities saw the most tightening. While new issuance of U.S. corporate credit slowed down in the fourth quarter, 2020 volume surpassed issuance in 2019. Meanwhile, volume of newly issued bank loans fell in 2020 from a year earlier. For 2020, the Bloomberg Barclays U.S. Aggregate Index returned 7.5%, the Bloomberg Barclays U.S. Corporate High Yield Index was up 7.1%, and Credit Suisse Leveraged Loan Index gained 3.6%.
